

WORD FAMILY FORAGE

What You Need to Know:

To forage means to look for food.

What You Do:

1. Draw an animal shape.
2. Cut it out.
3. Choose a word family card and write this word family on your animal.
4. Turn your animal over so you have the blank side facing up.

Think, Write, Draw, Discuss:
You can make more animals that forage for the same or different word families. Make sure you help all of them find enough words from the proper word families to eat!

7. Keep reading and foraging for words until your animal is full.
6. When you find a word from that word family write it on the back of your animal.
5. Look in your book and help your animal forage for the word family that it needs to eat.

Your animal is hungry and can only eat words that are from that word family!
